

### **POLICY STATEMENT FOR GREEN CAMPUS**

The institution is located in rural area of Bishrampur. The college is surrounded by green belt of SECL occupied area and Gorakhnathpur village. The institution and its governing bodies have taken active part in development of greenery in the campus. Tree plantation in college campus and regular maintenance of these plantations are some of the work started by the institution for development of green campus. In future institution will increase number of plantations and green area within the campus. NSS volunteers of the college have also propagated value and importance of greenery outside the campus through campaign and rally. The green campus policy of the college recommends for constitution of a post of green ambassador (any student) in the college to take care of greenery in the campus.
