

POLICY STATEMENT FOR ENVIRONMENT AND ENERGY USAGES

Clean and green environment is need of society and nation. Students, faculty and other staffs of the college are well aware of the importance of clean and green environment. Every stake holder of the institution takes active part in maintenance of clean and hygienic environment in the campus. The NSS volunteers of the institution take part in swachhata abhiyan and other environment friendly activities. To inculcate value of environment to students, statements of famous persons are encrypted everywhere in the campus. The institution also takes care of optimal use of energy in the campus. Unnecessary use of power equipments is avoided in the institution for minimal use and maximum output from power supply. The policy of the institution for environment is to *keep clean, be safe*. For energy usages policy of the institution is *minimum use maximum output*.
