

PERSPECTIVE PLAN

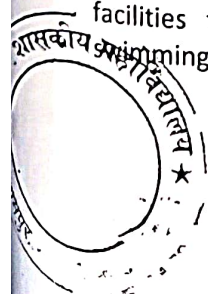

The short-term and long-term perspective plans aim to create a progressive and well-equipped educational environment that fosters academic excellence, holistic development, and overall growth of the college.

Short-term Perspective Plan:

- 1. Classroom Upgrades:** Enhance classroom infrastructure by providing smart boards, audio-visual equipment, and comfortable seating arrangements to facilitate interactive learning.
- 2. Laboratory Expansion:** Invest in upgrading and expanding the laboratory facilities to accommodate advanced equipment and experiments in various disciplines, promoting practical learning.
- 3. Library Digitalization:** Further automate the library system by implementing RFID technology, expanding the digital resources collection, and integrating online databases for easy access to academic materials.
- 4. Technology Integration:** Increase the number of computers in the computer lab, upgrade software and hardware, and provide training for faculty and students to effectively utilize digital resources for research and learning.
- 5. Sports Facilities Development:** Develop and maintain the sports facilities by improving infrastructure, providing necessary equipment, and organizing regular sports events and tournaments.

Long-term Perspective Plan:

- 1. Campus Expansion:** Plan and execute a campus expansion project to accommodate the growing student population, and construct additional classrooms, laboratories, and administrative offices to meet future needs.
- 2. Resource Center Establishment:** Establish a centralized resource center that includes a state-of-the-art library, research facilities, and collaboration spaces to foster interdisciplinary learning and research.
- 3. Sports Complex Development:** Build a comprehensive sports complex with dedicated facilities for indoor and outdoor sports, including a multipurpose hall, gymnasium, swimming pool, and athletic track.

4. **Environmental Sustainability Initiatives:** Implement eco-friendly measures such as solar power systems, rainwater harvesting, and waste management systems, and promote sustainable practices across the campus.

5. **Auditorium Construction:** Construct a modern auditorium with advanced audio-visual capabilities, ample seating capacity, and acoustics to accommodate cultural events, guest lectures, and seminars.

6. **Technological Advancements:** Stay at the forefront of technological advancements by regularly upgrading the ICT infrastructure, providing high-speed internet connectivity, and incorporating emerging technologies like virtual reality and artificial intelligence in teaching and learning.

The short-term and long-term perspective plans aim to create a progressive and well-equipped educational environment that fosters academic excellence, holistic development, and overall growth of the college.
