1- Alternate sources of energy and energy conservation measures-

Common electricity meter is provided for the entire campus. Electricity is provided by ' chhattisgarh state power distribution company limited'. Conventional tube lights, LEDs and fans are installed in classrooms, laboratories and library for efficient energy consumption and saving on electric bill. LEDs lights is good from efficiency point of view. These tube lights are switched on in the night with the help of timer. During study, tube lights were on in the class room and it was observed that lux level was good in the class room near to window.
